AMENDMENT

Assistant Commissioner for Patents
ATTN: BOX AMENDMENT
Washington, D.C. 20231

Dear Sir:

In response to the Office Action mailed July 23, 1999, please amend the above-identified patent application as follows:

IN THE CLAIMS:

Kindly add claims 15-19 as follows.

15. (New) A method of providing a consumer with a grain based food product on demand, said method comprising the steps of:

storing a plurality of recipes for producing a plurality of baked food products in a process control unit;

receiving from the consumer a desired quantity of the food products and the desired recipe for the food products from the stored recipes or from the consumer with the electronic interface and store the quantity and recipe in the control unit;

initiating a dough making apparatus and directing the dough making apparatus with said process control unit to feed raw ingredients from storage devices into said dough making apparatus;
